It was well explained, and I got a good understanding of the programming involved. This book focuses on practical techniques for developing apps so Android Programming: Basic Android application development is covered in sufficient detail. It felt that I was almost entirely in the details, and didn't have enough pause. It was precise and effective for beginners. A great book to start programming, I look at it as a reference. Get unlimited access to videos, live online training, learning paths, books, and more. It was 1 week before released. Want to Read saving...
