Just what was the point of this damn book??? Has he been reading feminist theory?

It is very well-written and I suppose it serves to remind us not to live like robots. Faber realises he cannot control his environment as life continues to conspire against. Sabeth said nothing and lost a point... On the surface a straightforward story, simple and resembling a parable; but like a parable capable of many interpretations and readable on more than one level.

To ask other readers questions about Homo Faber please sign up. Brief images had to read this for school and it was better than all the other books I've read for school. But there was only one point for each round; it was no use producing half a dozen similes.
