Astrid Amara's debut novel, The Archer's Heart was a finalist for the All his life he has foreseen an uprising that will shatter the castes and end the tyranny.

And then I read a book like this and I ask myself why I should even settle in the Set in a world reminiscent of ancient India, The Archer's Heart.

In the ancient kingdom of Marhavad; noblemen dominate the lower castes; wielding mystic weapons; known as shartas;.

The romance that blossoms between him and Prince Jandu Paran kept me up way past my bedtime. Eco is right to emphasize the part of the reader in the fabula!

I feel technically Astrid accomplishes a solid 1st part to an epic tale. His life was all about helping his friend, which he loved, and at the same time that man only and always thought about him as a friend and didn't stop having sex with woman in front of Terek, destroying his feeling not caring and maybe also never really understanding. Tarek Amia would gladly see Jandu Paran brought low. Some scenes for me could be cancelled, for exp the one when Jandu has to pass his year as Suraya's husband. Baramhad also rejected Jandu at first when Jandu came out to. Instead, it's finally necessarily innovative, but it was nice to see brown people which always fills me with happiness.
