It is an unfortunate but real truth that in general humans are not great decision-makers. Advertising Mayo Clinic is a nonprofit organization and proceeds from Web advertising help support our mission. SHARE is named for the first letter in each of the five steps:

All patients were receiving a combination of treatments. A substantial proportion of patients diagnosed with lung cancer show impairments in their capacity to make a medical decision. People with very advanced cancers sometimes find they'd rather treat the pain and other side effects of their cancer so that they can make the best of the time they have remaining. Doctors sometimes refer to a treatment that's used after the primary treatment. Taking charge of your care.
