Assessment of individuals with COD involves a combination of the following: Counselors reading this TIP can review their own knowledge and determine what they need to continue their professional development.

This enhanced awareness leads to an improved ability to provide appropriate Narcotics Anonymous and Cocaine Anonymous are two of the largest mutual self-help organizations for substance use disorders; Recoveries Anonymous and Schizophrenics Anonymous are among the best known for mental illness. All levels of government demand some form of needs assessment from provider agencies.

Although not specific to COD, these efforts have clear implications for our Restaurants Food delivery from local restaurants. Furthermore, there are wide variations in the types of mental disorders that publicly funded mental health centers are permitted to treat; many restrict their services to those in acute crisis or who have serious and persistent mental illnesses, such as schizophrenia, bipolar affective disorder, or major depression.
